# Understanding the ANIMAL KINGDOM

A highly professional multi-media, curriculum  
enhancement program with LIVE ANIMALS

*from*

*jellyfish to jaguars*

*from*

*butterflies to bull elephants*

**T**he Colorado Department of Education Science Content Standard #3 states... "Students should know and understand the characteristics and structure of living things... vertebrate and invertebrate... complex to simple." This program is a true learning experience based on that Standard.

Visit Perry's web site, [www.perryconway.com](http://www.perryconway.com), and click on **Multi-Media Wildlife Programs** for additional programs and information. Presentations are adaptable for K-8 and always include LIVE ANIMALS.
